will be \$1.140. It means an increase in the taxes to the people owning property in those three blocks of 400 per cent. Besides this there is the special taxes for the purchase of Garfield park.

"The assessed valuation of the property liable for the paving of those three blocks is \$6,480, while the cost of the paving will be \$7,608, this is \$1,125 more than the property is worth on the assessment for taxation purposes. This last year the delinquent tax amounted to about 15 per cent or \$300, just for list three blocks. Eleven lots and a tract of land show that the taxes for last year with the comparatively low rate were not paid."

Mayor Green still refuses to give out a statement committing himself to the vetoing of the contracts for three blocks, though it is stated at the city hall that such an action will follow. Grading for the paving on Central avenue and North Kansas avenue will commence either the latter part of this week or the forepart of next. The combined cement curb and gutter will then be put in by Haskins and Ramesy, who state that they will put in the finest plece of cement work in the state. Workmen from Kansas City who are especially experienced in this kind of work will be engaged and film rock from Joplin will be employed.

Contracts were prepared for the grading and the curbing today by the city attorney.

because the vaudeville theater season is

HE SLEW YOUNG ESTES

On the Strength of What His Child Told Him.

Other Testimony That She Was Drunk and Unconscious.

Houston, Va., June 25-When the trial of former Judge Loving charged with he murder of Theodore Estes adjourned yesterday the defendant had begun to relate a conversation with his broththe alleged drugging of his daughter, which led to the killing, when the attorneys for the prosecution objected on the ground that Judge Loving's statement would be hearsay evidence. After engthy arguments today this objection was overruled, thus scoring an incidental victory for the defense. Judge Loving, continuing, said Mr. Sneed came to his office and told the painful story. Sneed said that while buggy riding on the evening previous, he saw Elizabeth Loving and Theodore Estes out riding

E. L. Kidd came to the home of the Sneeds and inquired for Sneed, saying that Miss Loving had returned from her buggy ride in a bad condition. Connuing the witness said:

inuing the witness said:

"Sneed went to the room at Mrs. Kidd's and saw Miss Loving in the bed. She was delirious and her condition was pitiful. Sneed said that in the parlor of the Kidd home he saw Mrs. Kidd and Theodore Estes and told them that he would go for a doctor. Estes, nowever, insisted on getting a doctor himself. Dr. Strother arrived and she did not recognize him. Harry said that my daughter was in the care of Dr. Strother. He then went down of Dr. Strother. He then went down the street when W. B. Lee, a merchant of Lovingston and kinsman of his wife, told him that Dr. Strother had said that Theodore Estes had informed him (Strother) that Elizabeth was drunk and to treat her for that and say nothing of it.

"Harry said that he returned home that night and decided to tell me. I was shocked and sent for my wife and daughter. I received a letter from Miss Annie Kiddsaying that my daughter was still there. My wife went after Elizabeth in a surrey, returning with her. I told Elizabeth of the conversation with Harry Sneed. She got down on her knees and began sobbing down on her knees and began sobbing and said that Sunday evening Theo dore Estes requested her to go riding with him; she declined, but upon be ing urged, accepted. After they got in the buggy they drove to the house where Theodore Estes lived and he got out and remained for some time. They then drove, she said, in the direction of Gap. While returning, Estes produced a bottle of whisky and offered her drink. She declined, but later did take a drink and in a second felt dizzy and queer. She requested him to drive fast and return home instead of continuing to Lovingston. He went rapidly up the mountains in an opposite direction. After that she became unconscious and did not know what happened. When asked if Estes had assaulted her she said Estes had forced himself upon her and she had only a faint recollection. This revelation came to me as a thunderbolt from a clear sky. I loved my daughter and no power on earth could have restrained my hands."

The witness here began to weep. Several of his relatives also shed tears. Continuing Loving said: "In this condition of mind I went I got my shot gun and drove lone to Lovingston, but found he was at Oak Ridge. I went to Oak Ridge where I learned Estes was in a car at I then turned my horse

F. P. LINDSAY ARRESTED

Former Police Judge to Answer in His Old Court,

Judge F. P. Lindsay, fermer police judge and now propriets of the American steam laundry, was arrapied today on a charge of throwing ashes in the alley. The fireman employed at the laundry had shoveled ashes out of the rear door of the building, and the complaint was made by John Coyn, one of the Sanitary officers.

When Judge Lindsay was palice judge Judge Urny, the present incumbent, was prosecuting attorney in that court, therefore it may be presumed that when Judge Lindsay is arraigned for his henious crime he will not be subjected to the "third degree."

ALFALFA ON THE INCREASE.

Twenty-five Per Cent More Acreage, Says Mr. Coburn.

A report given out today by F. D. Coburn, secretary of the state board of agriculture, shoys that the alfalfa acreage of the state has increased 25 per cent this year, this estimate being made on returns received from assessors in 46 counties. The 46 counties show an increase of 50,000 acres. In 1906 the total acreage was 615,000, and on the basis of a 25 per cent increase, the total for 1907 would be close to 750,000.

In 1891 the state had only 34,384

MONEY COMES SLOW.

Washburn Fund Is Still \$12,000 Short of the Mark.

Today is what State Eibrarian James
L. King would describe as "riant," being a mixture of cooling refreshing breezes, sunshine and clouds in just the right proportions to formulate a temperature which for this season of the year is almost perfection. Then there is the uncertainty as to the showers which seems to be lurking back of every bank of clouds, threatening to at any moment empty their contents on a district which can well get along without them.

Yesterday was a well behaved day until several hours after the sun had disappeared and today seems to be an aggravated condition of the same kind with the possibilities of showers this evening. Before late patrons of Vinewood park had started for home last night the storm which had been threatening all day broke with one mighty gust of dust laden wind followed in quick succession by others of the whirling snorting cyclone variety. This wind storm lasted for less than half an hour and then came the deluge which was of the variety which made Noah famous on account of his resourcefulness and farsightedness with

The committee realises committee. The committee realises that the proposition of getting \$12,000 in four days is not like stepping into a golden bonanza and are working hard. It is still probable that the end will be reached as the committee members have each provided themselves with large lists of possible givers and are working hard to land contributions.

The names of the merchants who will give their profits of Friday to the Washburn fund not already reported are as follows: George W. Stansfield, First National Barber shop, A. B.
